A remarkable Presidential campaign is ow under way.

It is announced in Washington that

Congressman Linton of Michigan, the A. P. A. leader in the House, is seriously a candidate for the Presidency. As the representative of a secret Order his canvass is heing made in secrecy, but it is be-

Making an independent nomination, they expect Linton to be their choice. They say, however, that they are going to have enough of their Order in the Republican Convention to defeat any man who is repugnant to them. The say that some of the Delegates will ever disregard instruction if necessary.

Linton has made himself rather con though his devotion to the cause of the A. P. A. His famous "little red school-house" speech first brought him into notice amang his colleagues. It was not realized then how far the movement which he represented might go. His speech struck the pepular fancy and members from all quarters sent it out to their constituents to read. One Scnator distributed a million copies, and about two million mere were circulated by the Republican members of the House. The character of the fight this session

against sectarian schools shows how active the movement has been during the

No river of the world furnishes to commerce such a vol-ume of traffic as does the Ohio river and its tributaries, and hence it is the high duty of statesmanship to see to it that the

after all these years of arrugele the system of contract improvement has been applied to the Ohio river. An intelligent plan of improvement will be the result of the survey.
